DESTINY CHRISTIAN SCHOOL

3801 S.E. 29th Street ♦ P.O. Box 15300 ♦ Oklahoma City, OK 73155
serving the community over 25 years as Mid-Del Christian School

Since the 1960's, parents across America have voiced their desire for an education that will train their children academically and morally. They know there will be a cost, but the dividends will be worth it. The next generation can be different if Christians train their children to follow God. It is in response to this need that Mid-Del Christian School was established in 1981. After 26 years of service to the community, our name has changed to Destiny Christian School, but the vision remains the same.

*The vision of Destiny Christian School
is Truth-centered Education
for God-given Destiny.*

Through our commitment to this vision we can train, prepare and equip young people to make a difference in their world. In an environment of strong academics and loving discipline, students will have the best opportunity to prepare for life, whether as a minister, nurse, technician, educator, homemaker or business person.

We realize the solemn responsibility under God to carry out this vision. We are accountable to God, a higher authority than any man-made government. We welcome the opportunity to assist you, the parents, in training the next generation.

Curriculum

The curriculum used by Destiny Christian School is Biblically integrated, gives a sound educational foundation, and provides a good progression of instruction from Pre-School through the 12th grade. Qualified Christian teachers make the curriculum come alive and provide role models for the students both in and out of the classroom.

Our school utilizes Christian-oriented textbooks whenever possible. Children are taught in self-contained classrooms with traditional classroom instruction. In addition to the basics, students are also provided with opportunities in physical education, fine arts, foreign language, and computer technology. There is also a daily Bible class for every grade level.

DCS is committed to instructional methods and academic content which parallel the developmental needs of children at each grade level. All curriculum is reviewed systematically so that changes can be made and supplemental material can be added as needed.

Each year an achievement test is given to the students to evaluate their progress. Copies of these test results are made available to parents.
